SUMMARY

I am a passionate **Frontend Developer (Fresher)** with hands-on experience in HTML, CSS and JavaScript, now moving to React, and UI development. Intermediate foundation in Object-Oriented Programming (OOP) and Data Structures & Algorithms (DSA) through four semesters of Computer Science education. Passionate about creating responsive, user-friendly web and mobile interfaces and eager to learn, grow, and contribute in a collaborative development environment.

EDUCATION

UNIVERSITY OF NAROWAL (Narowal)

Bachelor of Science in Computer Science (BS-CS)

- Continue (4 Semesters Completed) [Session 2023-2027]

SKILLS

- HTML
- CSS
- JAVASCRIPT
- C++
- SQL
- Adobe Photoshop
- MS Office

Experience

Frontend Web Development Intern at Elevvo Pathways

- One Month Internship [October 2025 – November 2025]

PROJECTS

1. Responsive Weather App

I developed a **Responsive Weather App** using HTML, CSS, and JavaScript with real-time **API** integration. The application provides current weather updates and a 5-day forecast while maintaining a responsive design that works seamlessly across devices. During this

project, I focused on writing clean, structured code and strengthening my problem-solving skills.

2. Stuff ToDo – ToDo Web Application

Built a task management app using HTML, CSS, and JavaScript, featuring add, edit, and delete functionality, a live task counter, and a progress bar to track completion. Strengthened expertise in DOM manipulation, front-end development, and UI/UX design principles.

3. Personal Portfolio Website

I've built a personal portfolio website to showcase my work in my Frontend Web Development journey. I've used HTML, CSS and JavaScript to create this portfolio site. This site shows my work during my whole journey.

4. Build a One-Page Website for a Task App (TaskFlow)

Built a Blog page named as TaskFlow to manage the task and pricing subscriptions using HTML, CSS, and JavaScript. It strengthened expertise in DOM manipulation, front-end development, and UI/UX design principles.
